

# Working together to make a difference

The local area are looking at the opportunities parents and young people have to give feedback when going through the Education, Health and Care Plan (EHCP) process. Currently there is an online form but this isn't usually filled in, it used to be a paper survey but that also rarely got filled in and returned also.

We are looking for some parents to be involved in a zoom session to tell us their views on the areas below. This is to get better knowledge/feedback which will improve the systems for parents and young people. Creating a better experience when going through the EHCP process.

**\* If you would like to be involved in making a difference please send us your name and email address via our Email address and Facebook page detail below.**

When do you want to be asked for your feedback?	How would you like to be asked?	Who would you like to ask you?	What do you want to be asked / what do you want to tell us?	How can we tell you, what we have done with your feedback?
